

BACG
British Association for Crystal Growth
Registered Charity No. 261780

METTLER TOLEDO

**The Inaugural Meeting of the
Irish Crystallographic Association**
in conjunction with the
British Association for Crystal Growth

*Thursday 6th September 2012,
Crowne Plaza Hotel, Dublin*

09:45 Registration and coffee

10:20 Opening Address

10:30 Keith Lorimer, Almac

"The Evolution of Solid Form Screening"

11:15 Jakki Cooney, University of Limerick

"Structural insights into a highly specific protease"

12:00 Prof. Kieran Hodnett / Colin Seaton, University of Limerick

"Solution Mediated Polymorphic Transformations"

12:45 Brian O'Sullivan, Mettler Toledo

"Recent Advances In in-situ Particle Characterization"

13:00 LUNCH

14:15 Rob Hill, Bruker

"D8 Crystallography Solutions".

14:30 Gary Morris

"Alternative Processing Technologies and Control for the Selective Crystallization of Desired Polymorphs"

15:15 Joseph Lyons

"The rational tailoring of the in meso method - the crystallisation of caa3-type cytochrome oxidase"

16:00 Sally Price, University College London

"Computed Crystal Energy Landscapes as a Complement to Solid State Screening"

16:45 Closing Remarks
